# Restrictive Trade Practices Compliance

This Restrictive Trade Practices (also known as Australian Competition Law) training provides staff at all levels of your organisation with an understanding of how competition is protected by the *Competition and Consumer Act*. Penalties for not complying with the law can be substantial – fines of more than \$10 million per offence for companies and up to half a million for individuals. Remember, ignorance of the law is no defence against legal action! This training provides practical guidance on how to remain compliant with the complex laws surrounding restrictive trade practices.

## Course structure and delivery

This course is delivered online at the learner's own pace and takes about 90 minutes to complete, but can be completed over multiple sessions. Course topics are organised into six modules, each containing a short quiz. Every quiz must be passed to complete the course.

## Built-in course features

All MCQ International courses are designed to operate on a wide variety of devices, including computers, iPads, tablets and mobile phones. Optional accessibility features include audio narration, dark mode display, and a distraction-free 'reader view'. Course progress is recorded automatically across all devices.

## Refresher version available

The full-length version of this course is complemented by a refresher version, which is intended for learners who have previously completed the full course. The refresher version only takes around half the time to complete but contains the same level of assessment to ensure that knowledge is maintained over time. We recommend that all staff complete refresher training at least every two years.
